

App. No. 10/710,008

**REMARKS - General**

Also applicants have rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentably over the prior art. The claims have been modified and combine to address the rejections based on Nuerieier (USPM 6,317,730) in view of Mascarenhas (USPAP 2002/0029162) and Zizzamia (USP 2004/0054553) and Tewari (USPM 6,004,267). The new claims are novel and unique and not obvious to someone skilled in the arts.

**Conclusion**

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

Respectfully submitted,
